

Overview

Table 23

Offense Analysis, Number and Percent Change, 2009–2010

- In 2010, the average dollar value per motor vehicle stolen in the U.S. was \$6,152. The average dollar value of property taken during burglaries was \$2,119; during robberies, \$1,239; and during larceny-thefts, \$988.
- By location, 73.9 percent of burglaries occurred at residences. Among robbery offenses, 43.2 percent occurred on streets or highways.
- The number of offenses in all of the specific larceny-theft categories decreased in 2010 when compared with the 2009 totals. The category with the largest decrease over that time period was larceny-thefts of coin-operated machines, which declined 20.8 percent from the 2009 total.
- Larceny-thefts involving property valued at more than \$200 comprised over 45 percent (45.3) of all larceny-thefts.
