

## Data Declaration

### Table 78

#### Full-time Law Enforcement Employees, by State by City, 2010

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

#### General comment

This table provides the total number of law enforcement employees, total officers, and total civilians employed by city/town law enforcement agencies listed alphabetically by state.

#### Methodology

- The information in this table is derived from law enforcement employee counts (as of October 31, 2010) submitted by participating agencies.
- The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.
- Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.

#### Population estimation

For the 2010 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2000 decennial population counts and 2001 through 2009 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2009 Census population estimate to derive the agency's 2010 population estimate.
