Data Declaration

Crimes Against Persons, Property, or Society Incidents
Offense Category
by Time of Day, 2011

The FBI collects these data through the FBI UCR Program's NIBRS.

General Comment

These tables show the number of incidents per offense category by the time of day in which the crime occurred. The offense categories were then divided into tables for Crimes Against Persons, Crimes Against Property, and Crimes Against Society.

Methodology

This table uses the following rules and then aggregates the data by time of day in which the incident occurred:

- Incidents columns – count one for each offense type identified in Data Element 6 (UCR Offense Code) within each NIBRS incident and then combine the figures into offense categories.

- In a multiple-offense incident, count one for each offense type in the incident.
