

## **Data Declaration**

## Sex Offenses Number of Offenses Completed and Attempted by Offense Type, 2011

The FBI collects these data through the FBI UCR Program's NIBRS.

## **General Comment**

This table shows the number of offenses completed or attempted by the sex offense type.

## Methodology

This table uses the following rules and then aggregates the data by whether the sex offense type was completed or attempted:

- Sex Offenses columns count one for each victim, i.e., Victim Segment, connected to each sex offense type in the incident (in a multiple-offense incident, count a victim for each connected sex offense type).
- Number of Offenses Completed count one for each sex offense type, i.e., Offense Segment, where Data Element 7 (Offenses Attempted/Completed) is C = Completed.
- Number of Offenses Attempted count one for each sex offense type, i.e., Offense Segment, where Data Element 7 (Offenses Attempted/Completed) is A = Attempted.
