An average of 11.4 incidents occurred annually, with an increasing trend from 2000 to 2013.

160 incidents occurred between 2000 and 2013

1,043 Casualties, including killed and wounded (shooters were not included in this total)

486 were killed in 160 incidents

557 were wounded* in 160 incidents.

*A handful of those identified as “wounded” were not injured by gunfire but rather suffered injuries incidental to the event, such as being hit by flying objects/shattered glass or falling while running. This does not account for all those wounded in this fashion or any mental or emotional trauma that resulted in potential medical treatment.
