

## Data Declaration

### Table 8

#### Offenses Known to Law Enforcement by State by City, 2006

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

#### General comments

This table provides the volume of violent crime (murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by city and town law enforcement agencies (listed alphabetically by state).

#### Caution against ranking

Readers should take into consideration relevant factors in addition to the areas' crime statistics when making any valid comparisons of crime among different locales. Variables Affecting Crime provides more details concerning the proper use of UCR statistics.

#### Methodology

- The data used in creating this table were from city and town law enforcement agencies submitting 12 months of complete offense data for 2006.
- The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.
- When the FBI determines that an agency's data collection methodology does not comply with national UCR guidelines, the figures for that agency's offense(s) will not be included in the table, and the discrepancy will be explained in a footnote.

## **Population estimation**

The FBI calculated 2006 state growth rates using revised 2005 state/national population estimates and 2006 provisional state/national population estimates provided by the U.S. Census Bureau. The FBI then estimated population figures for city jurisdictions by applying the 2006 state growth rate to the updated 2005 U.S. Census Bureau data.
