Agency Case #: 85-250056
ViCAP #: 1999FL00001

This unidentified female was recovered along a dune line on Cresent Beach, Florida. According to the forensic pathologist, the victim had been buried for 1-5 years prior to the discovery of her remains. The above pictures are facial composites created of the skeletal remains. The victim had three burr holes in her skull from an apparent craniotomy procedure 1-2 years prior to her death. Dental records, anthropological, and autopsy reports are available upon request.
