

E-Check

Make an addition to your NICS Background check process!

**Use the NICS E-Check in conjunction with the
NICS Contracted Call Centers!***

**Aren't Two Options Better than One?
So why not use both?**

You type it in and You check the status!

Go Ahead and Take The Three Easy Steps To Sign Up:

1. Complete and fax or mail in an original signed registration form (available on our Web site listed below) for each user at your location.
2. Complete the on-line (electronic) registration form for each user at your location at our Web site listed below. You must complete both an on-line and an original registration form.
3. After receiving an approval notice (usually the same day the NICS receives both the on-line registration and the signed original by fax or mail), download and protect your digital certificate.

You are ready to use the NICS E-Check; it's that simple.

*Registering to use the NICS E-Check does not prevent you from using the NICS Contracted Call Centers. NICS E-Check is a free-of-charge alternative method of initiating a NICS background check.

Certain Restrictions Apply:

You must be a registered Federal Firearms Licensee.

You must have Internet access.

You must use a Web browser with 128-bit encryption technology.
