*\*FIS transactions can include any combination of biometrics (Fingerprint; Photo; Palms) and are considered a biometric maintenance and not an identification service. The utilization of the Biometric Image Submission (FIS) transaction to grow the enrollment of the Photo and Palm repositories has led to multiple projects, causing fluctuations in the overall receipt and reject totals received each month. Therefore, beginning in April 2019, all FIS transactions were removed from all criminal tenprint calculations for FY19.*
