

## Benefits to the Private Sector

### Web Portal Access for DSAC and InfraGard Members:

- FBI and DHS threat advisories, analytical reports, and vulnerability assessments in real time
- iGuardian, the FBI's cyber incident reporting tool designed specifically for the private sector

### Unique Networking Opportunities:

- FBI and other government agency presentations
- Information sharing and relationship building with FBI and law enforcement at all levels

### Training and Education:

- FBI and other government security awareness training programs
- Free or discounted local seminars and conferences

Contact your local FBI Office and ask to speak with the Private Sector Coordinator.

## OFFICE *of* PRIVATE SECTOR

CONNECT TO PROTECT

The FBI's

# OFFICE OF PRIVATE SECTOR

The Office of Private Sector (OPS) provides one voice for the FBI, connecting industry leaders and FBI professionals to address the emerging threats facing the private sector.

OPS works to enhance the FBI's understanding of the private sector's risks and needs, increase collaboration and information-sharing between the Bureau and the private sector, and mitigate threats through longstanding, mutually beneficial partnerships between the private sector and the FBI.

**While the threats we face continuously evolve, together we can mitigate the risks by establishing strong partnerships.**

How can we connect?

## Private Sector Coordinator

Each field office has a Private Sector Coordinator serving as the primary liaison with local businesses and members of the private sector. PSCs coordinate and de-conflict each field office's engagement with private industry, across all programs.

## Key Programs

### Domestic Security Alliance Council

The DSAC program is a private/public sector partnership intended for security executives from Fortune 1000 size companies with a national, and often international, scope of business. Membership in DSAC is held by the company, not by individuals.

<https://www.dsac.gov>

### InfraGard

The InfraGard program is a private/public partnership between the FBI and individual private sector members that provides collaboration and timely exchange of information relevant to the protection of our nation's critical infrastructure.
