Agency Case #: 2010-05274

On 04/19/2010, Margaret Ann Unger was last seen in the morning near her home on Turkey Run Road in St. Clair, Missouri. She was reported missing by her husband that evening. Her husband told authorities that she took off the robe she had been sleeping in and put on a t-shirt and shorts and left the house without socks or shoes. He reported that he watched her walk out the door, away from the house and into the woods. He then followed her until she got to the woods and lost her. He also indicated that she hadn't taken her medicine as scheduled and had an extensive history of mental illness. She also has a defibrillator/pacemaker for a heart condition which requires medication. An extensive search was conducted in the area, several leads were followed, but all led to negative results.
