

ViCAP ALERT – UNIDENTIFIED HUMAN REMAINS

Attention: Homicide, Sex Crimes, Violent Crimes, Crime Analysis, Coroner and Medical Examiner Units

Race: Black
Gender: Female
Hair: Black – Tightly Curled
Age: 25 - 45
Height: 5'5" – 5'9"
Weight: 120 – 150 pounds

Dumped: May - August 2008; (Based on degree of skeletonization and lack of bleaching and cracking of bones.)

Recovered: September 15, 2008

Dental: Partial upper denture. The denture replaced the anterior teeth and was held in place by wires and two premolars. Three (3) shortened teeth roots were left in place and covered by the denture. It has been suggested that this denture may have been made while the victim was in prison.

Remarks: Victim may have given birth at least once.

On September 15, 2008, workers discovered human skeletal remains in a wooded area in Holmes County, Ohio. The remains were located along an embankment, approximately six feet from the roadway. No clothing, jewelry or identifying information was recovered. Victim's DNA has been forwarded to the University of Northern Texas for inclusion in CODIS.
